

Steps:

Step 1: open XAMPP-→table emp

Step 2: Right click Libraries-→add .jar file

Step 3: New Project→java with Ant-→Web Application-→PB5-→Finish

Step 4: open Web pages folder-→index.html(Code given below)

Step 5: Right click Source package-→new →Servlet→AddEmployee.java

Step 6: Right click Source package-→new →Servlet→SaveEmployee.java

Step 7: Right click Source package-→new →Servlet→UpdateEmployee.java

Step 8: Right click Source package-→new →Servlet→ViewEmployee.java

Code:index.html
